

Moh. Kurnia Agusta

+689530456949 | kurniaagusta50@gmail.com | [LinkedIn](#) | [Portofolio](#)

Fresh graduate of Informatics Engineering from Universitas Trunodjoyo Madura with hands-on experience in software development, database management, computer networks, and hardware and software troubleshooting through academic, internship, and personal projects. Familiar with Python, PHP/Laravel, JavaScript, MySQL, and Neo4j. Possesses a systematic approach to troubleshooting and problem-solving, with the ability to work independently and collaboratively and adapt to new technologies and work environments.

EDUCATIONS

- **Universitas Trunodjoyo Madura – Teknik Informatika** (2022-2026)
Relevant Coursework: Programming, Database Systems, Computer Networks, Operating Systems, Software Engineering, Machine Learning, and Natural Language Processing. GPA: 3.69/4.00
- **SMKN 2 Lamongan – Teknik Komputer dan Jaringan** (2018-2021)
Relevant Coursework: Computer Hardware, Computer Networks, Operating Systems, Computer Assembly, and Basic Troubleshooting.

WORK/INTERNSHIP EXPERIENCE

- PT. Texio Mitra Digitalisasi Indonesia - Fullstack Developer Intern** (Feb-Jun 2025)
- Developed and maintained the finance module of the company's Enterprise Resource Planning (ERP) system using Laravel for web applications and Flutter for Android applications.
 - Contributed to the development and integration of finance-related features across web and mobile platforms.
 - Managed database integration to support the processing and presentation of financial data within the system.
 - Performed testing, debugging, and feature improvements to ensure proper application functionality.

SELECTED PROJECTS

Mesin Pencarian Semantik pada Dokumen Putusan Pidana

Python, Neo4j, Knowledge Graph

- Developed a semantic search engine for general criminal court decisions using Python and Neo4j.
- Built a knowledge graph to represent entities and relationships within court decision documents.
- Implemented information extraction and graph traversal-based search to improve search result relevance.

Sistem Penilaian Akademik

React, JavaScript, MySQL

- Developed a system for managing and processing academic assessment data.
- Implemented features for data management and automated grade calculation.
- Conducted testing and debugging to ensure system functionality met requirements.

E-Vote Berbasis Website

Laravel, PHP, MySQL

- Developed a web-based e-voting system to support the OSIS election.
- Implemented the management of voter, candidate, and voting result data using a relational database.
- Implemented the system as a digital solution to support the election process in a school environment.

SKILLS

- **IT & Technical Support:** Hardware Troubleshooting, Software Troubleshooting, Operating Systems, Basic Networking
- **Programming:** Python, PHP, JavaScript, Java, C++, C#
- **Frameworks:** Laravel, React, Flutter
- **Databases:** MySQL, Neo4j
- **Tools:** Git, GitHub, Microsoft Office

LANGUAGES

- **Indonesian:** Native
- **English:** Intermediate
- **Russian:** Basic
